The response we have garnered at ADIPEC is a sign of optimism in the oil and gas industry and testimony to the energy sector's resilience. Yes, we are facing challenges, but the energy sector will always find its way around them through cost optimisation, innovation, developments in technology, and industry collaboration, all of which ADIPEC enables.

OFFSHORE & MARINE CONFERENCE

9-12 November 2015, ADNEC, Abu Dhabi, United Arab Emirates

New to ADIPEC in 2015 was the dedicated Offshore, Marine & Heavy Equipment Zone and the specialised Offshore & Marine Conference. This new exhibition area allows companies to showcase offshore products, services and solutions – from rigs and vessels to subsea drilling equipment, pipelines, and tools for reservoir production and mapping – in an actual marine environment and quayside.

This new addition is complemented by a dedicated Offshore & Marine Conference where industry leaders have an opportunity to share valuable offshore oil and gas knowledge and information.

المرأة في الصناعة WOMEN IN INDUSTRY

Sunday 8 November 2015

Eastern Mangroves Resort and Spa by Anantara, Abu Dhabi, UAE

Hosted under the patronage of Her Excellency Sheikha Lubna Al Qasimi, Minister of International Cooperation and Development, this year's conference included a keynote address by H.E. Sheikha Lubna, and invited women achievers to the stage for one-on-one interviews revealing riveting insights on their journey to becoming leaders in their fields.

Women In Industry is a forum to focus upon the growing and important role of women in the oil and gas sector, with the aim of both educating and embracing the drive to engage women in its future growth and success.

“

Women play a valuable role in the workplace across all sectors. Their unique abilities bring significant value to industries such as oil and gas, where attracting professionals with the right skills mix is essential to progress,”

said H.E. Sheikha Lubna Al Qasimi.

Hosted under the patronage of His Excellency Sheikh Nahyan Bin Mubarak Al Nahyan, Minister of Culture, Youth and Community, ADIPEC presented the 3rd edition of the Young ADIPEC programme. 368 students from sixteen schools have participated in the programme.

Abu Dhabi students gained hands on experience in the energy sector through a series of educational and engaging activities such as field trips and competitions before ADIPEC and also on-site activities.

At ADIPEC 2015 we created Experience Zones and the Treasure Hunt:

This was an experiential edutainment area that aimed to let the students meet the industry in a fun and interactive way. It featured The Petroleum Institute Educational zone, the Oil & Gas Theatre zone, Young ADIPEC Inspiration Ambassador zone, Place 2 Be zone and a dedicated Video Diary wall.

Treasure Hunt:

This was a journey on the ADIPEC exhibition floor, students met the main players of the industry on their exhibition stand.

ADIPEC GOLF DAY

The Abu Dhabi International Petroleum Exhibition & Conference

The ADIPEC Golf Day provides an unique opportunity for key industry figures to network and engage in some friendly competition whilst playing an 18 hole championship course.

The 2nd edition of the fundraising event brought 144 oil and gas industry leaders to the golf course for a good cause – the UAE-based charity Friends of Cancer Patients.

Following the success of last year's event, more than 100 industry leaders played to support cancer patients and their families, including representatives from Shell, Mubadala Petroleum, Abu Dhabi Oil Company (ADOC), ADMA-OPCO and Zakum Development Company (ZADCO).
